

## Ms. Xenia Tang

### **Greetings!**

I'm Ms. Xenia Tang and I am an Ontario Certified Teacher in the junior and intermediate division in geography and ESL. I have had experience in sciences all my life and have been teaching after school and summer robotics programs for the past year. I have taught ESL camps internationally, both in Macau and China and I continue to teach English classes today. My passion for different styles of music, world geography and sciences, as well as my passion to learn of new cultures enriches my lessons. I believe in teaching the whole child, not only teaching curriculum but also in teaching them to be better individuals.

I hope to share this love of music, culture, English and robotics with you soon!

~Ms. Xenia
